

**Overview of Direct Push NMR Logging**

Presented by:  
 Elliot Grunewald, PhD, LG  
 Chief Scientist  
 Vista Clara, Inc.

Javelin NMR Logging Tool Deployed by Geoprobe Direct Push Drilling Machine | NMR Data Acquired using Javelin on Earth NMR Surface Station | Real-time Characterization and Visualization of Hydrogeological Properties

**New Video on Direct Push and NMR Logging**

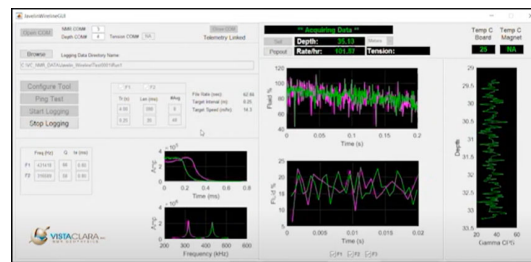

This video provides an excellent overview of the techniques and benefits of combining NMR Logging tools with Direct Push capabilities.

The key value proposition is the ability to leverage NMR's superior ability to acquire unambiguous data along with Direct Push capability to provide efficient, low-impact, deployment with no drilling disturbance.

**Application Spotlight:  
 Denver CO Uses NMR to Manage Aquifer Storage and Recovery (ASR) Project**

Magnetic resonance (NMR) logging is well suited for helping manage aquifer storage and recovery (ASR) projects. This excellent example in Denver Colorado, shows how they used Vista Clara NMR borehole logging tools to characterize the Denver basin aquifer properties, especially hydraulic conductivity, for potential aquifer storage and recovery.
